

Strange 2013 (feat. The Doors)

Tech N9ne

[Intro: Tech N9ne]

Lets get it

Fredwreck, Robby Krieger, Ray Manzarek, John Densmore, Tech N9ne, and Mister Jim Morrison[Hook: Jim Morrison & Tech N9ne]

Strange days have found us

(I been a nobody, but now I get it in)

Strange days have tracked us down

(Nowhere to run, what I did is keep it wicked? pretend)

They're going to destroy

(Everything in my path I'mma gas I'mma spit it to the end)

Our casual joys

(I'ma take away your everything, I'mma merk? where I began)

We shall go on playing

Or find a new town

Yeah![Verse 1: Tech N9ne]

In the beginning it was negative, wasn't nobody? heavenly sick brethren

Tech's veteran, better than clever man

You're gonna be off of your rocker when the chakra's on chopper

It's kinda funny having no money coming up

It's the number independent 1 rapper, people running up

?

Beast in the nation, cheese generatin'

Now everybody know where the flame spray, fame pays, maintains brain crazed

Leaving them all leaking in pain

Hey gain, wait

Get ready for Strange Days[Hook][Verse 2: Tech N9ne]

I told them I was gonna ball for y'all

Did it all, they didn't wanna get involved at all, yeah

They said that I was gonna fall, but now I'm walking tall

They all saw wicked? start here

Everybody will applaud the odd lyrical god

The fraud better kneel before his own, yeah

Never ever will I dissolve my heart in the dark, so when they call I'mma all a call, yeah

Wanna hate me

Industry gotta face me

They be shaky, ladies say we may be the crazies

They hella hazy, John Wayne the case be

The industry face off too sweet like pastry

Look at all these mentions

Look at all this ubratitions
Remember everyone saying I wasn't gonna make it, but the Tecca Nina kept on inchin'
This ain't no dang phase
Never will my reign fade
On the come up and a one up
Man it feels good to finally see Strange praised[Outro: Jim Morrison & Tech N9ne]
Strange days have found us
(This is the trip)
And through their strange hours
We linger alone
(The best part I, really really like)
Bodies confused
(6, 7, Tech N9ne!)
Memories misused
(Fredwreck. Thank you brotha)
As we run from the day
To a strange night of stone
