

Arabian Disco (Demo)

Faith No More

Has it been so long?
Do you think we know?
Do you think we care? Die, for the here and now
Do you remember why?
Do you remember how? Just face out
The set back
Stick your chest out
Stomach in
That's right Do you really know
Where the harems go?
In the desert snow, hail
An oasis dream doesn't really seem
To mean a thing when you're out cold So, hands up
Put your guards up
Feet down
Up, down Forward march
Left, go right
Cold, cold, cold
I feel cold
