

Heart

Gary Numan

Does she make you laugh?

Does she make you cry?

Does she call your name?

Let me tell you why. Have you ever tried to look into her eyes?

Have you ever tried to look into her heart? There is no-one home.

Time will heal you

Time heals everything

Just an empty room.

Time will help you

Time helps you forget

There's no tears for you.

Time will heal you

Time heals everyone

There's no heart at all.

Time will help you

Time helps you forget me. She will change your world.

She will change your mind.

She will change your rules.

She will make you blind. You will never try to look into her eyes.

You will never try to look into her heart. See there's no-one home.

Time will heal you

Time heals everything

See an empty room.

Time will help you

Time helps you forget

See no tears for you.

Time will heal you

Time heals everyone

See no heart at all.

Time will help you

Time helps you forget me. I'll leave you

You'll try to forget.

I'll haunt you.

Like someone haunts me.

I'll leave you.

You'll try to forgive.

I'll haunt you.

Like someone haunts me. Does she laugh at you

Like she laughed at me?

Does she break your heart
Like she broke mine?
