## Tech N9ne

Yeah

Go right upConnect, ain't nobody but Tech  
I been dope since I put raps on BASF cassette  
Since then my pen been at war like Montagues and Capulets  
A menacing strap you get, been winning in rap who's next  
To get permanent power polluted, paper protruded  
Punani praise on its pubics and they're prepared to pursue it  
Get us then we drills em

Having plenty thrills um wellington New Zealand banging her with a chest like Wendy Williams  
Everybody know with the kinda money I bring to the table I can put em off  
Take em all around the world, get the dough and get the girl touching other people and I brought the hood along  
Teams why, wings fly people I never seen cry  
If you wanna see the mean side just go stream what I seen on steam, put your hand in my bean pie  
Salam Baseem, Hakim and Keuh Rameen  
I'm something fierce, I bring player haters to tears with my schemes  
Come reach me, I got the species locked and no one can beat me  
The feces, what I released on this beat he's gonna wanna seek me be'cause I'm the WeeFeeWeefee, WeeFee,

WeeFee

I can put you on  
Weefee, WeeFee, WeeFee  
With my push alone  
Weefee, WeeFee, WeeFee  
Now you set in stone, I'm the  
WeefeeYeah, people need me, I'm the WeeFee  
I get them on movies and TV  
Connecting Scooby and Stevie  
Straight from Missouri to Fiji  
Trying to intrigue me ain't easy  
Unless you bringing them bad beasies in three-bies  
We be having them louder than 194 dB  
Organ, grinding, so they pour us in their mouth, and they're loving it like Thorazine  
When they freaking out I'm Jim Morrison  
But I go without hair Billy Corgan  
Releasing a lot more of them endorphins  
Weefee wins the war again the gores been like a horror film  
'Cause we kill, everything so be still  
When we move in, not a cheap thrill  
When the beat feels like E pills  
Steadily repping B till, my B-L-double O-D spills

Then again Tech Nina keep mills  
So I know I'mma get me a refill  
Tech is highly respected  
Been with a few major labels and left it  
I rated my records intrepid  
Since they didn't rep it then F it  
Now I'm elected to get the check and invest it  
I'm such a vet that you can bet I can get you connected  
'Cause I'm the WeeFeeWeefee, WeeFee, WeeFee  
I can put you on  
Weefee, WeeFee, WeeFee  
With my push alone  
Weefee, WeeFee, WeeFee  
Now you said in stone, I'm the  
WeefeeUnh, if you with me but hating me  
Disconnect from me, get away from me  
Get a bit of fame thinkin' they're big as your paper be  
When they try to shake a G they normally have to take a fee  
That's lower than what they pay for he that works in Eminem's bakery  
You doubt a N9ne, you out of sight you out of mind  
Nigga shout a crime from me they sniffing them powder lines  
I'm the righteous  
But I'm killing 'em like I'm Cypress  
Play me like I'm not the nicest  
No WeeFee leave you lifeless  
Taking a knife to fight with ISIS, I like it  
When they spite they get vices  
When they hit that pipe think they're psychic  
Wanna get in my mic and try to slice it  
But they do fizzle when they hear SuWu whistles  
Disrespect me true this will happen and they lose signal  
This was long awaited  
Strange is how all the fakes were created  
They think they made it, forgot about me and skated  
They music, everybody played it 'cause I was right there to save it  
They downgraded they hate it 'cause their signal is faded  
'Cause I'm the WeeFee, niggaWeefee, WeeFee, WeeFee  
I can put you on  
Weefee, WeeFee, WeeFee  
With my push alone  
Weefee, WeeFee, WeeFee  
Now you set in stone, I'm the  
Weefee
