Wishing Well

Ryan Bingham

I've been wasting my time
I don't need no more rain
I've been gone for so long
I think the devil lost my nameI took a little ride
On a heartache highway
Loving from you, honey
Keeps me moving on my wayWhen I go astray
Lose my way
Honey, I go down
To the wishing wellStanding at them crossroads
I've been begging for change
I said I've been gone for so long
The devil lost my nameThe big wheel is burning up the rubber
The highway is killing time
And this here gutless six string
Eases my mindWhen I go astray
Lose my way
I go on down
To the wishing wellI said I've been wasting my time
I don't need no more rain
Blood drips from my knuckles
It helps ease the painStanding at them crossroads
I've begging for change
I said I been gone for so long
I think the devil lost my nameWhen I go astray
Lose my way
Honey, I go down
To the wishing well
