

Dr. Ssanasinod

The Mantras

Verse:

He grew up by himself
He never had a friend
To call up on the phone
He never played a sport
Except for ping pong
And he played it all alone
But he grew up smart
And he grew up man
His laboratory
Was all he had

Chorus:

Dr. Ssanas

Dr. Ssanas

Dr. Ssanasinod

x4Verse:

He built his killing machines
With Frankensteinic brains
Inside of them
Then brought them to life
With lighting
And they'd bow down
And worship him
But he's a lonely guy
He's a lonely man
Robots aren't friends
Not even to him

Chorus:

Dr. Ssanas

Dr. Ssanas

Dr. Ssanasinod

x4Verse:

Jerry was a robot, that Ssaninod
Had brought to life
Short circuit in his mainframe
Sent Jerry after Doc
With a kitchen knife
So now the doctor's dead
And so are we
Without doc to control them

The robots will run free
