A Little Bit

mobilÃ©e

And it will take a little bit of extra time
To make it shine, to make it shine
And it will take a little bit of extra care
To bring it where you think it's there
And there's no one else around
But this is what I've found
Anyone you see, anyone you meet
Someone at your feet, anyone could be the one
Anyone you know, anywhere you go
Someone at a show could be that one
And it will take a little less than all you've got
To get a shot, to get a shot
And it will take a little bit of extra care
To bring it where you think it's there
And there's nowhere else to go
But this is what I know
Anyone you see, anyone you meet
Maybe down the street, anyone could be that one
Everywhere you look the pages of a book
All the years it took everything that got you down
And it will take a little while to get back home
The road is long, the road is long
And it will take a little work to get it back
To mend the cracks, to bridge the gaps
Anyone you see could be the one
Anyone you meet could be that one
Someone at your feet could feel the same
Making you complete could share your name
Everywhere you look the pages of a book
Everything she took, never let it keep you down
You're holding out for news
All broken up and bruised, a loser born to lose
Anywhere you go, anyone you know
You think it doesn't show but everybody knows
Anyone you see maybe down the street
Someone at your feet could be that one
