

Spaghetti

Sexbomb Girls

I don't need to be impressive, I don't need to run the game
I don't want to keep on chasing, maybe I'll just go my way

Ayeee ee ayee ee everything's gonna be alright, alright

I don't need no bumpin music, all I need is my guitar
I don't need no late night cruisin, I don't even got a car

Like ayeee ee ayee ee everything's gonna be alright, alright

I wanna lay low, not just 'cause I'm broke
I wanna stay home and have a kick back, tonight.
Sorry not sorry, am I (I, I)

Let's ditch the party and call everybody
And we'll make spaghetti and it'd be all ready
Ayeee ee ayee ee everything's gonna be alright, alright

So don't fear tomorrow, let that be the motto
And just pass the bottle and we'll make it hotter

Like ayeee ee ayee ee everything's gonna be alright, alright tonight

I don't need no debby downer, I just wanna keep my buzz
I don't wanna no melodrama, I don't gotta trip because

Ayeee ee ayee ee everything's gonna be alright, alright

I wanna lay low, not just 'cause I'm broke
I wanna stay home and have a kick back, tonight.
Sorry not sorry, am I (I, I)

Let's ditch the party and call everybody
And we'll make spaghetti and it'd be all ready
Ayeee ee ayee ee everything's gonna be alright, alright

So don't fear tomorrow, let that be the motto
And just pass the bottle and we'll make it hotter

Like ayeee ee ayee ee everything's gonna be alright, alright tonight

Aye aye, alright, everything's gonna be alright
Aye aye, alright, everything's gonna be alright
Aye aye, alright, everything's gonna be alright

Aye aye, alright, everythingâ€™s gonna be alright

Letâ€™s ditch the party and call everybody

And weâ€™ll make spaghetti and itâ€™d be all ready

Ayeee ee ayee ee everythingâ€™s gonna be alright, alright

So donâ€™t fear tomorrow, let that be the motto

And just pass the bottle and weâ€™ll make it hotter

Like ayeee ee ayee ee everythingâ€™s gonna be alright, alright tonight

Letâ€™s ditch the party and call everybody

And weâ€™ll make spaghetti and itâ€™d be all ready

Ayeee ee ayee ee everythingâ€™s gonna be alright, alright
