

Dawson's Geek

Busted

You think you know it all, I see it in the way you're speaking
The long words that you use are starting to get irritating
I've got the urge to knock you out and I can't handle this
The ladder by your bedroom window really takes the piss
Step back, take a look at where you're at
You're just a raving Dawson's maniac
You think that you know everything
Take one step back and look at yourself
I think you don't know anything
All my friends think that you're such a freak
And you're just a Dawson's geek
Dawson's, Dawson's geek
Why can't you see that you don't look like him in anyway?
At least that kid has friends and that's a lot more than you can say
Lost your mind and I don't think that you know who you are
Naming your dog 'Pacey' was taking things a little too far
Step back, take a look at where you're at
You're just a raving Dawson's maniac
You think that you know everything
Take one step back and look at yourself
I think you don't know anything
All my friends think that you're such a freak
And you're just a Dawson's geek
Dawson's, Dawson's geek
I guess, I'll have to wait for your life to be over
I guess, I'll have to wait, I guess I'll have to wait, oh, oh, oh
I think you don't know anything
All my friends think that you're such a freak
And you're just a Dawson's geek
You think that you know everything
Take one step back and look at yourself
I think you don't know anything
All my friends think that you're such a freak
And you're just a Dawson's geek
Dawson's, Dawson's geek
You're such a Dawson's geek
