

I Need You More Today

The Bishops

Verse I

There are decisions I can't make on my own
And there are trials I must face all alone
But you said you'd walk with me
Down life's troubled road
And you said come unto me
I'll bear your heavy load

Chorus

I need you more today than I did yesterday
Mountains are higher, rivers are wider
I need you more today than I did yesterday
Help me remember I need you more today

Verse II

When I wake up with the morning
And I fear to face the day
Let me feel your gentle hand leading the way
Yesterday has come and gone
With those trials far behind
But I'm ever learning Lord
And everyday I find

Repeat chorus twice, then

Dear Lord remind me, I need you more today
