

# Movin' On

Elliott Yamin

When I think about you baby, I cant help it  
I lose all my focus and I just cant stand it  
I get so excited every time I hear your name  
And you dont reciprocate and its a damn shame, ohSee all Im trying to do girl is, is give you my time and you  
know  
You better not move too slow because Im moving on  
Ill take this chance and roll the dice  
I might miss out on the love of my life'Cause you know as time moves on I wont always be around  
And Ill be gone and I wont always be down  
'Cause Im giving it up to you and you know this much is true  
As time moves on, its gonna be gone 'cause Im movin' onI know it sounds crazy but I just cant do this  
It feels like were wasting time so Ill get to it  
When I look into your eyes I can see right through you  
And you dont feel the same way that I do, ohSee all Im trying to do girl is, is give you my time and you know  
You better not move too slow because Im moving on, lady  
Ill take this chance and roll the dice  
I might miss out on the love of my life'Cause you know as time moves on I wont always be around  
And Ill be gone and I wont always be down  
'Cause Im giving it up to you and you know this much is true  
As time moves on, its gonna be gone 'cause Im movin' onIm telling you, you really missed out on a good thing  
for sure  
As a matter of fact, Im glad I didnt walk through that door  
Im a better man for it, said I can learn from it or ignore it  
You know Ive seen it all before, now your best friend's at my doorIm movin' on, oh  
Said Im movin' on, yeah'Cause you know as time moves on I wont always be around  
And Ill be gone and I wont always be down  
'Cause Im giving it up to you and you know this much is true  
As time moves on, Im gonna be gone 'cause Im movin' on  
Im movin' on, baby, Im movin' on, movin' on, Ill be gone, yes I will
