She's Too Good to Be True

Charley Pride

Sometimes late at night I wake up dreaming
I reach out and feel for her, she's too good to be true
Then I touch the sleeping softness of my Angel
And half asleep she turns to whisper, I love you'Cause she's just too good to be true but she is
And in my arms, she reassures me with a kiss
She's everything I ever looked for in a woman
She's just too good to be true, but she isEach day I go to work, it's like forever
'Til that evening son will bring me home again
But then she's waiting at the door with her sweet loving
And tonight, she'll be so good to me againOh, she's just too good to be true but she is
And in my arms, she reassures me with a kiss
She's everything I ever looked for in a woman
She's just too good to be true, but she is
She's just too good to be true, but she is
