

Gonna Get This

Hannah Montana

Today we're gonna get this
Today we're gonna get this
Today we're gonna get this
We're gonna get this, we're gonna get this
I can hear you crankin' up them speakers
I don't really want to show up any later
Because soon we gonna party like it's New Year's
Oh oh, oh oh
Yo, I'm lovin' all the music that they're playin'
But I ain't hearin' anything you're sayin'
Tonight we're gonna get this, gonna live exquisite
Oh oh, oh oh

Somebody dance beside me
'Cause I'm feeln' good at this party
Yeah, I'm fly just like Bob Marley
So here we go, girl, just turn it up
Are you the boy, the boy, the boy?
The honest truth, the real McCoy
You're the boy, the boy, the boy
That make me feel like a movie
This girl, this girl, this girl
Can be the one to rock my world
So be my girl, my girl, my girl
And love me just like a movie
I can see you hanging out in the corner
Lookin' fly and you're probably coming over
I've been checkin' out ya, but you didn't notice
Oh oh, oh oh
Yeah, I think that's it's really nice to meet ya
One, two, three, can't you smile for a picture?
Tonight, we're gonna get this, gonna really love it
Oh oh, oh oh

Somebody just said
"Hannah, do you already have a man
'Cause I'm smooth like Carlos Santana"
Well, here we go boy, just break it out
Are you the boy, the boy, the boy?
The honest truth, the real McCoy

You're the boy, the boy, the boy
That make me feel like a movie
This girl, this girl, this girl
Can be the one to rock my world
So be my girl, my girl, my girl
And love me just like a movie
Girl, I'm gonna sing my melody
If you wanna join in, go ahead and sing
We can dance all night, baby, you're with me
Oh oh, oh oh
Now we're gonna get down and party
Celebrate with everybody
Have a crazy-good time, yeah, the time of our lives
Oh oh, oh oh
Are you the boy, the boy, the boy?
The honest truth, the real McCoy
You're the boy, the boy, the boy
That make me feel like a movie
This girl, this girl, this girl
Can be the one to rock my world
So be my girl, my girl, my girl
And love me just like a movie
This boy, this boy, this boy
That girl, that girl, that girl
This boy, that girl
This boy, that girl
