

# Second Guesses

## Saosin

(Verse 1)

Keep it safe

Stop watch

Is it cold

Have I been dishonest?

Or has, has the weather become the excuse for what I did?

Evening eyes

Divisionless

So much more than they hoped for(Pre-Chorus)

(There's a reason why nothing ?)

Search along the dead river

Needle in the hay you hounds you out

Nothing you can fall back on(Chorus 1)

In the way it felt

I can see it was real

I won't be the only one carrying on(Verse 2)

Is it gone?

Is it cold to the touch?

Has it been forgotten?

Or has, has the autumn sun and on the ghost of what I want(Pre-Chorus)

(There's a reason why nothing ?)

Search along the dead river

Needle in the hay you hounds you out

Nothing you can fall back on(Chorus 2)

In the way it felt

I can see it was real

I won't be the only one carrying on

No one could have known

All of our pockets had holes

Sober up and you can see

More than what you wanted(Bridge)

Time won't lead you anywhere

Move forward into it

I can see the difference

What are you waiting for?

Time won't lead you anywhere

Move forward into it

I can see the difference

What are you waiting for?(Chorus 3)

In the way it felt  
I can see it was real  
I won't be the only one carrying all the blame  
No one could have known  
All of our pockets had holes  
Sober up and you can see  
More than what you wanted
