

Love the Way You Do So

Erasure

On and on and on
Here's the break of dawn
Coming through the window, heart
Pull yourself a chair up, love
On and on and on
Quiver like a reed
Let yourself a go-go, old one
Honor me a solo, young man
Careful not to give yourself away
There is still tomorrow and a heart-felt meaning
When you get that feeling you'll recall a night of love in motion
We shall lie warm inside
Quite at ease, watch me slide
Love the way you do so
We shall lie side by side
Here and now, talk in turn
Love the way you do so
Time is rolling on
Blending with the mind
Love the way you tease me, heart
Tear another layer off, love
Listen to the stillness of the day
Drawing ever closer like your heart is beating
And when I hear it beating I will recall a night of love in motion
We shall lie warm inside
Quite at ease, watch me slide
Love the way you do so
We shall lie side by side
Here and now, talk in turn
Love the way you do so
We shall lie warm inside
Quite at ease, watch me slide
Love the way you do so
We shall lie side by side
Here and now, talk in turn
Love the way you do so
