

Ode To Solitude (Gavin Russom Remix)

Him

Easy on the eyes, uneasy on the heart
Sew my wrists shut, sew my wrists shut with hope
Straight into the light shining bright
I dare you to dream this
And I dare you to dream this gone
What I want to know is which makes you smile less[Chorus]
Here's to the pain the light of the oncoming train
Come on ode to solitude in chains
Here's to the pain as always heaven in flames now bleeding
Ode to solitude in chainsMap the scars of a heart bruised and torn
Loosen the noose love loosen the noose with love
What I want to know is why you keep me hanging[Chorus]If I should fail to stay
Remember not to forget this feeling you have
I've failed please pretend it never happened baby[Chorus: x2]Ode to solitude
Ode to solitude
Ode to solitude
Ode to solitude
