

Mr. Moon

Carl Smith

Can I depend on your light pretty moon while I'm holding her tight silver moon

Will you be there above helping me win my love

And I depend on your light Mr Moon

Every time you're shining there's romance in the air

Reset her heart to pineing and tell her I'll be there

As I look in her eyes pretty moon will you look from the sky silver moon

If I ask her who'll be mine will you stand by me

Will you help me tonight Mr Moon

[steel]

If we're wed in the middle of June will you shine bright for our honeymoon

When you shine you make love seems to come from above

Will I see you tonight Mr Moon

It seems your gold and beauty just makes a perfect night

Somehow it seems my cuty looks cuter by your light

There'll be just us three pretty moon you and her her and me silver moon

For helping our romance I'll thank you in advance

And I'll see you tonight Mr Moon
