

# Palm Springs

## ASG

Went to the desert on a mission  
To have a vision or write a song  
I left real early, I left my cell phone  
I took the Prius, it gets good mileage  
Something's gonna happen  
To change my worldI'm on the highway  
I pass the windmills, I pass the outlet stores  
Soon I'll find the sacred places  
I've been searching forWild horses, hawks circling  
Gram Parsons, inspiration  
Big cactus, coyotes  
Something's gonna happen  
To change my worldWhen I got there to the motel  
It was different than on the website  
It was crowded, mostly seniors  
There was a bar band playing  
Bad, Bad Leroy BrownSo I went hiking, it was so barren  
And it got too hot, so I turned around  
(Ooh)  
Went to the main dragI saw the statue of Sonny Bono  
And he was smiling  
Something's gonna happen  
To change my worldWild horses, hawks circling  
Gram Parsons, inspiration  
Big cactus, coyotes  
Something's gonna happen  
To change my worldBack on the highway, wave to the windmills  
The setting sun in my eyes drive to the ocean  
That's where we come from  
I'll throw my troubles to the rising tide  
Something's gonna happen to change my worldSeahorses, sharks circling  
Brian Wilson, inspiration  
Smart dolphins waves crashing  
Something's gonna happenI said something's gonna happen  
(Ooh)  
I said something's gonna happen  
To change my world
