# Feel Your Fire

## Faktion

Right now theres an angel here
Shes in my arms
So now I can barely feel
She taking my heart away
And after this I know Ill never be the same
And I havent reached the stars tonightWhere did you go my child
Cuz I wanted to feel your love
And feel your fire
Where did you go my beautiful child
Cuz I wanted to feel your love
And feel your fireI wake with open eyes
My heart it burns
Something just dont seem right
Cuz left here all alone
Shes flown away
And never to return at all
So I fall back to earth tonightWhere did you go my child
Cuz I wanted to feel your love
And feel your fire
Where did you go my beautiful child
Cuz I wanted to feel your love
And feel your fireSo take my heart
Turn it into ashes
I dont need it
Now I have to dream
Someday you will come back to me
And Ill make you say
Together we can be anythingWhere did you go my child
Cuz I wanted to feel your love
And feel your fire
Where did you go my beautiful child
Cuz I wanted to feel your love
And feel your fire
Feel your fire
Feel your fire
