

I'm a Party

Magazine

I'm such and such, I'm a scream
Bad choices take me to task you'll see
I'll take out the car
But nobody'll want to crash Take me with you
(I'm a party)
I don't know where I've been
So all things being equal
(I'm a party)
I won't know where we're going You could do me a favor
Do whatever you want to
I will let you hurt me
Because I know it hurts you
It hurts you What you say goes
(I'm a party)
All over the town
I fell into you I keep up
(I'm a party)
With all that's coming down So, what's shaking
(I'm a party)
You've got me racing, you've got me racing
The sound of a siren
(I'm a party)
In all the spaces between You could do me a favor
Do whatever you want to
I will let you hurt me
Because I know it hurts you
It hurts you You could do me a favor
Do whatever you want to
I will let you hurt me
Because I know it hurts you
It hurts you (I'm a party)
I know it hurts you
(I'm a party)
I know it hurts you
I know it hurts you
(I'm a party) I know it hurts you
(I'm a party)
I know it hurts you
(I'm a party)

I know it hurts you
