A Date With Destiny

Guttermouth

every time i look at your face
it makes me want to taste it
makes me want to taste it
every time i look at your face, it makes me want to
rip my heart right out of me
shove me back in line
i'll groom you so lovingly - i'm yours
your worth your weight in gold
the gorgeous ring in your nose
we can take in a show
or a rodeo o-o-o
every time i look at your face
it makes me want to taste it
makes me want to taste it
every time i look at your face, it makes me want to
what we've got is very rare
you look so delicious
i'll make you your favorite meal - hey!
your worth your weight in gold
the gorgeous ring in your nose
we can take in a show
or rodeo o-o-o
every time i look in your face
i see a thousand steaks
a thousand plates of steaks -yeh!
when the people want to buy
and the market's high
just kiss your ass goodbye
you can kiss your ass goodbye (x3)
i can't explain our bond
life without you will be so hard
who's gonna plow my field
i loved you and you're a veal
