

# A Date With Destiny

## Guttermouth

every time i look at your face  
it makes me want to taste it  
makes me want to taste it  
every time i look at your face, it makes me want to  
rip my heart right out of me  
shove me back in line  
i'll groom you so lovingly - i'm yours  
your worth your weight in gold  
the gorgeous ring in your nose  
we can take in a show  
or a rodeo o-o-o  
every time i look at your face  
it makes me want to taste it  
makes me want to taste it  
every time i look at your face, it makes me want to  
what we've got is very rare  
you look so delicious  
i'll make you your favorite meal - hey!  
your worth your weight in gold  
the gorgeous ring in your nose  
we can take in a show  
or rodeo o-o-o  
every time i look in your face  
i see a thousand steaks  
a thousand plates of steaks -yeh!  
when the people want to buy  
and the market's high  
just kiss your ass goodbye  
you can kiss your ass goodbye (x3)  
i can't explain our bond  
life without you will be so hard  
who's gonna plow my field  
i loved you and you're a veal
