Shining Escalade

Hot Chip

I want a shining Escalade
Live my life a different way
Ride 'round the block with you, my boo
Always with you

A million others waited at my gate
We build the fences, now we can't escape
Hide with me under the covers
Cause you are my love

I want a shining s.u.v.

People see me differently

Fly 'round the world with you, my boo

Always with you

A million others waited at my gate
We build the fences, now we can't escape
Hide with me under the covers
Cause you are my love

Of all the things I must do
There is only one that I will
I will give all of this to you
Here it is, have your fill
Of all the things I must do
There is only one that I will
I will give all of this to you
Here it is, have your fill

Fly 'round the world with you, my boo Always with you
