

Having a Good Time

Thin Lizzy

Me and my buddies, we're going to get drunk
We're going to go out on the town
We'll be checking it out, slipping it in
And stepping out of line You know, everybody likes to get a little crazy
In their own particular way
But my buddies and I, we go over the top
And we're going over again today We'll be having a good time
Passing the by-line
Having a good time
You know it's a rock and roll pastime It might be typical, topical or maybe tropical
That doesn't mean anything
If you're political, practical
Then it's improbable, that you do anything But me and my buddies, we like to go crazy
We like to go over the hill
Hey, woman will you be there
Because my buddies and I will Having a good time
Passing the by-line
We'll be having a good time
It's a rock and roll pastime Hey Snowy
Play a bit for me That was Snowy White
And he likes err, it in the night
The next to play
I must say, is Scott Gorham and away We'll be having a good time
Passing the by-line
Having a good time
It's a rock and roll pastime Let's play that one more time
Hit me with that drum Brian
Hit me as hard as you can
Oh yes, that's they way I like it
Do it again, do it again, let's do it again Having a good time
Oh yes, I like this
Having a good time
Typical, topical, who cares? Having a good time
Political, practical, impossible
Having a good time
Don't ask me why Jack? Having a good time
Having a good time
Having a wild time Having a good time
I'm slipping on the inside

Having a good time
That's fineHaving a good time
Drinking Beaujolais, no that doesn't rhyme
Having a good time
Just talking from the top of my headHaving a good time
To the bottom of your soul
Having a good time
