Bloodshot

Lexy Panterra

Hey
What you doing to me babe?
I'm really feeling your swag
You got me twisted like that

Now
I'm smoking on your vibe
Got me straight hitting the floor
But got me flying so high

You're so sweet to me
you're my sticky icky icky icky
Put me fast to sleep
You're so sweet to me
You got me higher higher higher than I've been
Don't ever leave

What you doing to me?

While
You watch her put on a show
Sit let's flip the roll
I'll have you losing control

I'll grind you down and light you up
Next thing you know won't know what's done
That's how it goes
Got that good now watch it grow

You're so sweet to me
You're my sticky icky icky icky
Put me fast to sleep
You're so sweet to me
You got me higher higher higher than I've been
Don't ever leave

What you doing to me?
