

# Hot Summer's Tragedy

## III NiÃ±o

Disconnect with you again  
Death, to let the new begin  
Reconnected myself  
By molding to the ground  
Somber like the moods of me  
But violently and willingly  
Cuando me quemas inside  
And as you're dying beside me  
This spring the climates will claim the rest of us, right?  
Aiming at the broken people  
Only to target the weak and the feeble  
Detest me  
Arrest me  
But don't test me  
Cause I might go a little too far  
The perfect  
Imperfect  
Restless surface  
Got you nervous  
Sorting out the faceless people  
Ripping up the page and reason now  
The rest of the puzzle that follows this sequel  
Is full of deceit / Is burning the steeple  
And might just go a little too far  
Come to end the new begin-ning  
Tragically the coldest springs - we've  
Sheltered here in ashes  
Our cells ere hammered down  
Lleguas with ice y asi  
Hot summers come euphorically  
Comets fly, hook, sink and lies  
Cuando el invierno will claim the rest of us, right?  
Aiming at the broken people  
Only to target the weak and the feeble

Detest me  
Arrest me  
But don't test me  
Cause I might go a little too far

The perfect  
Imperfect  
Restless surface  
Got you nervous  
Sorting out the faceless people  
Ripping up the page and reason now  
The rest of the puzzle that follows this sequel  
Is full of deceit / Is burning the steeple  
And might just go a little too far  
The loss of the people is now  
The powers of evil prevail  
Arrastra tus manos en paz  
Demanda que escuchen mas  
The loss of the people is now  
The last of the story to fill the new sequel  
The loss of the people is now  
Arrastra tus manos en paz  
Aiming at the broken people  
Gives all the power to bastards of evil  
Detest me  
Arrest me  
But don't test me  
Cause I might go a little too far  
The perfect  
Imperfect  
Restless surface  
Got you nervous  
Sorting out the faceless people  
Ripping up the page and reason now  
The rest of the puzzle that follows this sequel  
Is full of deceit / Is burning the steeple  
And might just go a little too far
