

Blu Is A Mood

Blu Cantrell

State of mind
Color
Way beyond
Yonder
Deeper
Paradise
All describe
All describe
Blu is a mood When you're feelin' kinda melancholy
And ya get somethin' never thought about
Outta nowhere
Once in a while there's a special moon
And a clear sky colored pale azure
They all have something in common
And it's blu State of mind
Color
Way beyond
Yonder
Deeper
Paradise
All describe
All describe
Blu is a mood So bright it can be electric
Or indigo
Cobalt
Powder
Or paris
Have it any way you like
Stones of metamorphic sapphirine
From the heavens down to the deepest sea
It's in every part of your life
Do you feel it State of mind
Color
Way beyond
Yonder
Deeper
Paradise
All describe
All describe

Blu is a mood
Blu's not just a primary color
It's a backdrop for the universe
So if you're vibing on this chill atmosphere
Baby you have been blue
