

# Body High

## Mystery Skulls

Feel you glowin' for the first time  
glowin' for the first time  
glowin' for the first time, baby  
feel you glowin' for the first time...uhI try to make my baby understand  
move my hands like they're in love  
make you forget about every other man  
tell you stories with my body love  
live a life on repeat  
girl I'll make this extreme  
let me make you believe in something so right  
body high is so real  
move in closer I did  
will you do a little of the same for me?I Feel you glowin' for the first time  
I know it ain't the first time  
I hope it ain't the last time baby  
feel you glowin' for the first time  
know it ain't the first time  
hope it ain't the last time babyYou, you, you give me that body high  
You, you, you give me that body high  
You, you, you give me that body high  
live a life on repeat  
girl I'll make this extreme  
let me make you believe in something so right  
body high is so real  
move in closer I did  
will you do a little of the same for me?I Feel you glowin' for the first time  
I know it ain't the first time  
I hope it ain't the last time baby  
feel you glowin' for the first time  
know it ain't the first time  
hope it ain't the last time babyHigh, high, high give me that body high  
High, high, high give me that body ho-woah  
High, high, high give me that body high  
High, high, high give me that body ho-woah
