High Priest Of Rhythmic Noise

Cheap Trick

High priest of rhythmic noise
Living inside of me
I have been goin' round in circles
And I've considered first degree
Just a singer in a mind choir
Lives on harmony
If the song don't change the choir won't sing
Won't sing the same song forever
It's such a pity
What's a poor boy to do?
It's such a pity
What's a poor boy to do?
You look strange, that's what I like
You look strange like me
Fit to be tied, a little bedtime story
Next position, please
Just a singer in a mind choir
Lives on harmony
If the song don't change the choir won't sing
Won't sing the same song forever
It's such a pity what's a poor boy to do?
It's such a pity what's a poor boy to do?
It's such a pity what's a poor boy to do?
When the high priest of rhythmic noise is in there with you
Don't give up, get out, get down
(Forever is a long long time)
Don't stand up, shut up, sit down
(You're strange, that's what I like)
Don't make a move till you hear that sound
(I'm just a singer in a mind choir)

Don't give up, get out, get down
(High priest of rhythmic noise)
Just a singer in a mind choir
And live on old harmony
If the songs don't change the choir won't sing
Won't sing the symphony
Forever is a long long time
If you get the third degree

I'm a [Incomprehensible] little tiny plastic pills
From my little plastic brain
It's such a pity what's a poor boy to do?
It's such a pity what's a poor boy to do?
It's such a pity what's a poor boy to do?
When the high priest of rhythmic noise is inside of you
Don't give up, get out, get down
(Forever is a long long time)
Don't stand up, shut up, sit down
(You're strange, that's what I like)
Don't make a move till you hear that sound
(I'm just a singer in a mind choir)
Don't give up, get out, get down
(High priest of rhythmic noise)
Don't give up, get out, get down
(Forever is a long long time)
Don't stand up, shut up, sit down
(You're strange, that's what I like)
Don't make a move till you hear that sound
(I'm just a singer in a mind choir)
Don't give up, get out, get down
(High priest of rhythmic noise)
