

Tragedy

Bette Midler

Wind storm, comes the sound
From the stars my dark has come
You've gone from meWoah, tragedy
Woah, tragedyWoah, come back, help me here
Call me my love, love, be sincere
You've gone, you've gone
You've gone from meWoah, tragedy
Woah, tragedyLike smoke from a fire of love, love, love
Oh, our dreams have all gone
A fireBlown by wind, kissed by snow
All that's left is the dark
We know you've gone from me
Why?Tragedy
Yeah, yeah, yeah
