

# Yer Spring

## Hey Rosetta!

Long we were searching these serpentine streets  
for the sign of a spark  
fuckin around in the dark  
long we were held in the throng and the desperate heat of the club  
drinkin deep from that cup  
drink it up  
drink it up  
drink it up Each step was ???  
the beat in the blood and the heat in our hands  
Twelve regular men  
When we ??? cathedrals to the hollow and beat ???  
I'm going back up again  
I'm going up  
I'm going up  
I'm going up  
I'm going up Well everything is blooming  
You know the will can always wait  
to steal away your body  
to steal away your brain  
Oh man, I hate this part  
when the car sails off the bridge  
the ?? of knuckles white inside  
the might of water rushing in  
Am I rising up?  
Am I rising up?  
Am I rising up?  
Am I rising up? Singing--  
Hurry night  
hurry night  
Take my might  
take my might  
Lay me down  
Oh oh oh  
Sweet winter carry to receive????? (entire line I can't make out)  
I feel the light and I'm ready to be out in it  
??????? (another mystery line)  
I hear the chorus and I see the people singing????? (entire line I can't make out)  
I feel the light and I'm ready to be out in it  
??????? (another mystery line)

I hear the chorus and I see the people singing I scatter my (???)
