Captain Madness

Megan Slankard

Morning is born, 6:24
Gabriella wasn't sure if she was really sleepingDoing her chores
Like watching neighbor's tv through the kitchen window
YeahThe door growled on its hinges
Early wind has searching fingers
Gabriella hung the black laundry dryThere's dead wood burning out here shout out
Out here come beautiful fireflies
Is this as far as I can get, she says, on one tank of gas
When I'm with captain madness
Is it as much as I can live before I vanish in a guess
When I'm with captain madness?On the cusp
Of aquarius
Captain's not with the status quo gurusHe keeps mixing life and love with quick cement
Like her heart is vacant room to rent
And he stirs it with a wooden spoonThis is as far as I can get, she said, on one tank of gas
When I'm with captain madness
It's as much as I can give before I vanish in a guess
When I'm with captain madness
I'm packin' up my broom and my pointed shoes
And sail from captain madness
I must be on my way but did love to be with you
My captain madnessYou are a hollow man
I am hollow too
Doubt keeps dripping through these cracks
I don't know how it happened
I never cast a spell on youFar as I can get on one tank of gas
When I'm with captain madness
It's as much as I can love before I vanish in a guess
When I'm with captain madness
I'm packin' up my broom and my pointed shoes
And sail from captain madness
And I must be on my way but I did love to be with you
My captain madness
Yeah
