

When I Speak Your Name

[Jeff Berry](#)

When I speak your name
With a whisper of hope
You renew my faith
When I speak your name
The storm clouds that covered me
fade away

Jesus, you light up my darkness
Jesus, when I can't find my way
Jesus, I will follow you always
I am forever changed
When I speak your name

When I speak your name
I can lay my humanity at your feet
And when I speak your name
I feel love without measure
And we sing thee

Jesus, my constant companion
Jesus, my comfort, my friend
Jesus, it is you my heart longs for
I am forever changed
When i speak your name

The name above every other name
Your name's above every name

When I speak your name
My soul is set free
From these earthly chains
And when I speak your name
High passion runs deeply
With love's pure flame

For Jesus, you light up my darkness
Jesus, when I can't find my way
And Jesus, I will follow you always
I am forever changed

When I speak your name

I am forever changed
When I speak your name
