

Freakin U

Donell Jones

To all the girls around the way what you wanna do
'Cuz we bout to come through
Put your sun dresses on forget the thongs
And let's get our freak on But first I wanna pop Cris with you
Get high with you, lay down with you
But you gotta tell me what a nigga gotta do
'Cuz I wanna know about that freak in you
Bring out that freak in you To answer your question is D
Gotta know do you wanna roll with me
I rock from the east to the West Indies
Look at lil' Shortie, she's a real cutie Chillin' at the bar got her eyes on me
Lookin' like she wanna get real freaky
She can get all this love for free
So I hit her off with a hotel key To all the girls around the way what you wanna do
'Cuz we bout to come through
Put your sun dresses on forget the thongs
And let's get our freak on But first I wanna pop Cris with you
Get high with you, lay down with you
But you gotta tell me what a nigga gotta do
'Cuz I wanna know about that freak in you
Bring out that freak in you Jump in the X, I'm with you, I gotta gang of niggas
Better call your crew 'cuz I don't wanna have to hit the lobby boo
Gonna set it off in his hotel room, feelin' the goose
I got my eyes on you, sex in the air, what you wanna do
It won't stop 'til the night is through, gotta see that freak in you I bet you get affectionate if I froze your neck
and wet your wrist
Would you hold the keys whip, but only if you're freakin' it
If it's good, I'll take you to the crib so you can see
What all this is about that I've been telling
I wanna bring out that freak in you To all the girls around the way what you wanna do
'Cuz we bout to come through
Put your sun dresses on forget the thongs
And let's get our freak on But first I wanna pop Cris with you
Get high with you, lay down with you
But you gotta tell me what a nigga gotta do
'Cuz I wanna know about that freak in you
Bring out that freak in you To all the girls around the way what you wanna do
'Cuz we bout to come through
Put your sun dresses on forget the thongs

And let's get our freak onBut first I wanna pop Cris with you
Get high with you, lay down with you
But you gotta tell me what a nigga gotta do
'Cuz I wanna know about that freak in you
Bring out that freak in youTo all the girls around the way what you wanna do
'Cuz we bout to come through
Put your sun dresses on forget the thongs
And let's get our freak onBut first I wanna pop Cris with you
Get high with you, lay down with you
But you gotta tell me what a nigga gotta do
'Cuz I wanna know about that freak in you
Bring out that freak in youTo all the girls around the way what you wanna do
'Cuz we bout to come through
Put your sun dresses on forget the thongs
And let's get our freak onBut first I wanna pop Cris with you
Get high with you, lay down with you
But you gotta tell me what a nigga gotta do
'Cuz I wanna know about that freak in you
Bring out that freak in you
