

# The Dark House

## Lunic

Don't wanna fight no more  
Don't wanna win the war  
I cannot make a dead rose golden  
A penny for your time  
O precious valentine  
You hate me for the path I've chosen  
Cause in the dark house you aren't dreaming  
Sleeping alone  
Still counting castles I am weeping  
Leaving (home)  
Eyes I don't recognize  
Careen and criticize  
A faith less lost than never known  
O does it hurt to smile  
I know it's been a while  
The birds out here don't sing no more  
Up in the dark house there's no morning  
It's boring alone  
The words of wisdom you're ignoring  
Deploring your own  
I wanna go where heaven flows like silver liquid in my hands  
The magnet touch of purest love can save a man...  
So let's dance
