

Lady of the Valley

White Lion

Lady of the valley, can you hear me cry?
In the stillness of the night
I have lost my brother in the fights of the war
And my heart has broken down
In the night I cry but no one seems to hear
I step into the light but all I feel is fear
Lady of the valley, can you bring him back
To the days when we were kids?
Once we were together, we stood young and strong
But now it seems so long ago
The golden key is at the end of the chain
How it hurts, oh lady free me from this pain
In the night I cry to the lady of the valley
'Cause I'll die without the lady of the valley
In the night I call to the lady of the valley
On my knees, I fall before the lady of the valley
In the valley lies the treasure
And the lady guards it well
He who bears all the pressure
Is the one to break the spell
There's a sign that I've followed
It has led me to your seat
I have brought my fallen brother
And I've laid him, yes I've laid him at your feet
In the night I cry to the lady of the valley
'Cause I'll die without the lady of the valley
In the night I cry to the lady of the valley
'Cause I'll die without the lady of the valley
In the night I call to the lady of the valley
On my knees, I fall before the lady of the valley
