

# Erase Her

## LFO

Yeah, LFOCheck it out  
City lights electrify, I walked alone one starry night  
Afraid to sleep, cause I see her  
It's all the same, it's all a blurCan you erase her, erase her, can you help me lose my mind  
Can you erase her, erase her, can you leave the past behindIt's all so cold, it's all so cold, a dirty game  
I saw her out, I saw her out, she looked the same  
She cracked a smile, she cracked a smile, I used to see  
I wonder where, I wonder where, I'm supposed to beCan you erase her, erase her, can you help me lose my mind  
Can you erase her, erase her, can you leave the past behind  
Can you make me laugh, can you make me cry  
Can you say that these walls are built inside  
'Cause I know, she's not loved  
Can you erase her, can you erase herIt's all so cold, a dirty game  
I saw her out, she looked the same  
She cracked a smile, I used to see  
I wonder where I'm supposed to beCan you erase her, erase her, can you help me lose my mind  
Can you erase her, erase her, can you leave the past behind  
Can you make me laugh, can you make me cry  
Can you say that these walls are built inside  
'Cause I know, she's not loved  
Can you erase her, can you erase herCan you erase her, erase her, can you help me lose my mind  
Can you erase her, erase her, can you leave the past behind  
Can you erase her, erase her, can you erase her, erase her  
Can you erase her, erase her, can you erase her, erase her
