

Everyone's Got a Story

[Maria McKee](#)

Dragged myself out of the house last night
Some friends of mine played a gig in town
Chill so cold, crackin' up my spine
It was just the thing to bring me down
They got me a table in a public spot
The crowd was sparse and preoccupied
It was smoky, loud and hot
And I was dull with thoughts of suicide
Everyone's got a story
Everyone's got a tune
I've never felt so lonely
I've never felt so doomed
Never thought I'd lose the feeling
I'm jaded now and unimpressed
What am I doing spinning my wheels
To end up playing, I don't like this
Everyone's got a story
Everyone's got a tune
I've never felt so lonely
I've never felt so doomed
Everyone's got a story
Everyone's got a tune
How 'bout a little glory
When there's a crowded room
Someone had to get on the stage
Someone had to get on the stage
Someone had to get on the stage
Someone had to get on the stage
