Out of Control

Vicci Martinez

Been dancing all alone
Keep staring at the phone
I'm waiting for your call
This time it was your faultYou warm me up, to let me go
You stay away, to keep me cold
I don't know, but some things never changeYou turn me on, to shut me down
You pull me close, to push me out
I don't know, but something's gotta changeYou make me feel like I'm losing my mind baby
You make me believe that we're losing this time baby
C'mon, we're deep in the hole
Baby our love is out of control
You make me feel like I'm losing my mind babyBeen using up the wine
Been crying all the time
I keep on asking why
Don't wanna say goodbyeYou warm me up, to let me go
You stay away, to keep me cold
I don't know, but some things never changeYou turn me on, to shut me down
You pull me close, to push me out
I don't know, but something's gotta changeYou make me feel like I'm losing my mind baby
You make me believe that we're losing this time baby
C'mon, we're deep in the hole
Baby our love is out of control
You make me feel like I'm losing my mind babyI can't believe I'm feeling so low
I can't believe you don't even know
So maybe we should just let it go, oh noYou make me feel like I'm losing my mind
You make me believe that we're losing this time baby
You make me feel like I'm losing my mind
You make me believe that we're losing this time baby
C'mon, we're deep in the hole
Baby our love is out of control
You make me feel like I'm losing my mind baby
