

Faster Ride

Cartel

A green light, unkind
Nowhere to go on a one track mind
It's a break down at the wrong time
I'm catching up but I'm still behind We did it right, we did it right for some time
But I looked up and you were gone
We did it right, we did it right for some time
I couldn't give you what you want 'Cause you just wanna take a faster ride
Lower lows, higher highs
Get it, get it, go until you get it right
And I hope you find it 'Cause you just wanna take a faster ride
Lower lows, higher highs
But you just gotta kiss me one more time
So just kiss me goodbye A red light, wrong way
I'm just a game that you like to play
It's a hot start to your cold ways
You got bored then you walked away You did it right, you did it right for some time
But I looked up and you were gone
You did it right, you did it right for some time
I couldn't give you what you want 'Cause you just wanna take a faster ride
Lower lows, higher highs
Get it, get it, go until you get it right
And I hope you find it 'Cause you just wanna take a faster ride
Lower lows, higher highs
But you just gotta kiss me one more time
So just kiss me goodbye So now you're moving on with no regrets
But I'm still hanging on to every word you said But you just wanna take a faster ride
Lower lows, higher highs
Get it, get it, go until you get it right
But you'll never find it, no 'Cause you just wanna take a faster ride
Lower lows, higher highs
Get it, get it, go until you get it right
And I hope you find it 'Cause you just wanna take a faster ride
Lower lows, higher highs
But you just gotta kiss me one more time
Just kiss me goodbye, so just kiss me goodbye
