

Timing Is Everything

Zebrahead

If I didn't know better, I would swear you don't care
Throw yourself around, hold me down
I can see through you
You're so fucking bull headed, tormented, I don't get it
Thrown your weight around, hold me down
I can see right through you
Timing here is everything and everything means everything
I can see right through you
Timing here is everything and everything means everything
I can see right through you
Timing here is everything and everything means everything
I can see right, think I'm gonna be sick
You take anything to get through
You always got something to prove
And you want it all
What you got ain't enough
What you got ain't enough
What you got ain't enough
Come on, come on, alright, alright
If I didn't know better, I would swear you don't care
Throw yourself around, hold me down
I can see through you
You're so fucking bull headed, tormented, I don't get it
Thrown your weight around, hold me down
I can see right through you
Timing here is everything and everything means everything
I can see right through you
Timing here is everything and everything means everything
I can see right through you
Timing here is everything and everything means everything
I can see right, think I'm gonna be sick
You take anything to get through
You always got something to prove
And you want it all
What you got ain't enough
What you got ain't enough
What you got ain't enough
Come on, come on, alright, alright
I think I'm gonna be sick
You take anything to get through
You always got something to prove
And you want it all
You take anything to get through
You always got something to prove
And you want it all
What you got ain't enough
What you got ain't enough
What you got ain't enough
What you got ain't enough
