Just Can't Leave It Alone

Hyper Static Union

(Chorus:)
I just can't leave it alone
(I've got to sing a song of my redemption)
I just can't leave it alone
(I've left that old life behind)
I just can't leave it alone
(Oooh, this funky light of my salvation)
I just can't leave it alone
(I've got to let it shine)They won't shut me up
They ain't gonna put me down
They thing they've had enough
I just can't leave it alone(Chorus)His love's an ocean and we're going under
To the bottom of the sea
Waves will crash against the rocks like thunder
And they're beckoning to me
They won't shut me up
They ain't gonna put me down
They thing they've had enough
I just can't leave it aloneOoooh, I just can't leave it, I just can't leave it
I just can't leave it aloneHis love's an ocean and we're going under
To the bottom of the sea
Waves will crash against the rocks like thunder
And they're beckoning to me
