Come over Here

James Brown

Come over here, come over here
Come over here, come over here
Let me tell you, come over here
That I love you, come over here
And everything, come over here
Is going just all right, come over here
Come over here, come over here
And be with me tonight, come over here
And everything will be all right
Come over here, come over hereYeahCome over here, come over here
I want to let you know
I want you so bad, come over here
There must be a reason, come over here
I've got a pride, come over here
It was you, come over here
Don't let it happen to me, come over here
I need good, good loving, come over here
Darling, darling, come over hereYou better stop it, come over here
Dogging me around, come over here
So come on over here, come over here
Come on over here, come over here
So you've got the power, come over here
And you better think, come over here
You better think, come over here
I want you please, please, come over here
Please, please, come over here
Listen to me, come over here
You're so hard I can't stand no more, come over here
So please, please, come over here
Please, please, come over here
Tell me what I did wrong, come over here
Walk right up to me baby, come over here
Please, please, come over here
Please, please, come over here
Come over here, come over here, come over here
I said please, please, come over here
Tell me, come over here
Try me, come over here

Try me, come over here
