

Driving Lesson

Garbage

Car, car, car, car, car, car
Let's get behind the wheel, we'll go driving
To the mountains, to the rooftops
We can take it nice and slow, I'll be driving
To the icebergs, to the edges
Car, get in the car
Car, get in the car
Heading to the clouds, past the buildings
By the harbor, through the storm
Tear across the page, by the marker
Leave the light on, by the boy's side
Car, get in the car
Car, get in the car
I can make an honest man of you
I can make you clean if you want me to
I can make you go very far, just take the car
Get in the car, car, get in the car
Take the car
(Gotta feel to make it real)
Get in the car, car, get in the car
Take the car
(Gotta feel to make it real)
Get in the car, car, get in the car
Take the car
(Gotta feel to make it real)
