

Naked

Goo Goo Dolls

Yeah, I'm fadin' and I call out
No one hears me, never been
Never felt, never thought I'd say a word
Weighed down say it now You're naked inside your fear
You can't take back all those years
The shots in the dark from empty guns
Never heard by anyone, never heard by anyone Yeah, I'm hiding in the fallout
Now I'm wasted, they don't need me
Don't want me, don't hear a word I say
Weighed down say it now You're naked inside your fear
You can't take back all those years
The shots in the dark from empty guns
Never heard by anyone, never heard by anyone Inside your head no one's there
And I don't think I'll ever be and I don't care You're naked inside your fear
You can't take back all those years
The shots in the dark from empty guns
Never heard by anyone, never heard by anyone
By anyone, by anyone
