Broken Heart

Escape the Fate

I'm letting go
Cause I can't take this anymore
Since you broke my heart in twoI've been a little crazy lately
I've been out of my head
I remember every word you ever said
And oh I, I never thought you would betray me
A whole lotta regret
I cannot believe we're coming to an end
And now you got me feeling so damn lowI'm letting go
Cause I can't take this anymore
Since you broke my heart in two
And now I know
That you don't love me anymore
So take my broken heart with you
I've been a little lonely lately
I can't sleep in this bed
I remember every night we ever spent
And oh I'm hearing every word you told me
It's stuck in my head
All your promises were broken in the end
And now you got me feeling so damn lowI'm letting go
Cause I can't take this anymore
Since you broke my heart in two
And now I know
That you don't love me anymore
So take my broken heart with youWe could've been something
But now you got me feeling
Down, down, down
Down, down, down
We could've been something
But now you got me feeling
Down, down, down
Down, down, downI'm letting go
Cause I can't take this anymore
Since you broke my heart in two
And now I know
That you don't love me anymore
So take my broken heart with youI'm letting go
Cause I can't take this anymore

Since you broke my heart in two
And now I know
That you don't love me anymore
So take my broken heart with you
