

# Broken Heart

## Escape the Fate

I'm letting go  
Cause I can't take this anymore  
Since you broke my heart in two I've been a little crazy lately  
I've been out of my head  
I remember every word you ever said  
And oh I, I never thought you would betray me  
A whole lotta regret  
I cannot believe we're coming to an end  
And now you got me feeling so damn low I'm letting go  
Cause I can't take this anymore  
Since you broke my heart in two  
And now I know  
That you don't love me anymore  
So take my broken heart with you  
I've been a little lonely lately  
I can't sleep in this bed  
I remember every night we ever spent  
And oh I'm hearing every word you told me  
It's stuck in my head  
All your promises were broken in the end  
And now you got me feeling so damn low I'm letting go  
Cause I can't take this anymore  
Since you broke my heart in two  
And now I know  
That you don't love me anymore  
So take my broken heart with you We could've been something  
But now you got me feeling  
Down, down, down  
Down, down, down  
We could've been something  
But now you got me feeling  
Down, down, down  
Down, down, down I'm letting go  
Cause I can't take this anymore  
Since you broke my heart in two  
And now I know  
That you don't love me anymore  
So take my broken heart with you I'm letting go  
Cause I can't take this anymore

Since you broke my heart in two  
And now I know  
That you don't love me anymore  
So take my broken heart with you
