

# I Need You

## Saving Abel

Love me not Love me do  
Whatever you want it's your right to choose  
Breaking the silence in haste of the day  
Screamin out loud just to hear me say  
I need you  
Like the sun needs the rain  
Can't think of any better way to say  
I need you say you need me too  
Who needs you Baby I need you  
Can't chase this dream if I don't know what you mean  
Cause we're worlds apart we can't change who we are  
So lets break all the silence in the haste of the day  
Scream out loud let me hear you say  
I need you  
Like the sun needs the rain  
Can't think of any better way to say  
I need you say you need me too  
Who needs you Baby I need you  
Oh woah woah Oh woah oh oh

I've been giving (a little bit more)  
You've been taking (a little bit more)  
A little bit more than what I offered to you  
You keep taking (a little bit more)  
I keep giving (a little bit more)  
A little bit more is all I can view  
Who needs you I need you  
I need you  
Like the sun needs the rain  
Can't think of any better way to say  
I need you say you need me too  
Who needs who Baby I need..  
I need you  
Like the sun needs the rain  
Can't think of any better way to say  
I need you say you need me too  
Who needs who Baby I need you  
I need you
