

Charlie

Skinny Lister

Don't look back 'cos familiar will kill ya

I've seen it happen too many times too many times too many timesLife begins at a run down railway station

The 10: 15 on the London line, the London line, the London lineJust take a look at Charlie

Carries a dream for all of us

Flying the flag for northerners

Council estate to HollywoodJust take a look at Charlie

Like Steve McQueen he took the jump

Look at him go that could be us

Have to admit the boy done good

Just like his mother said he would

Like she said he would

Don't think twice, go and find your future

You know that fortune favours the brave, favours the brave, favours the braveFind your way cos no one will
find it for youAnother summer it came and went it came and went it came and wentJust take a look at Charlie

Like Steve McQueen he took the jump

Look at him go that could be us

Have to admit the boy done good

Just like his mother said he would

Like she said he wouldFix your grip, don't let it slip

Gotta fight for this, this is it

Just take a look at Charlie

Like Steve McQueen he took the jump

Look at him go that could be us

Have to admit the boy done good

Just like his mother said he would

Like she said he would
