The Whippoorwill

Blackberry Smoke

(Verse)
Going through life, the righteous way
The only way so the preacher would say
You put me on the Jericho road
Barefoot and smiling, standing there by the piano
(Chorus)
Well I dream that I heard that whippoorwill sing
Yeah she sang my song and called me by name
Well I hung my head in shame, Oh yeah
(Verse)
You sold my years together like a pachtwork quilt
You broken veils blooms, and I'll never will
The lessons I remember and some that I forgot
Are precious and pure now, like a 100 circle drive
(Chorus)
Well I dream that I heard that whippoorwill sing

Yeah she sang my song and called me by name
Well I hung my head in shame, Oh yeah
(Bridge)
I'm gonna sing my song with the whipporiwll at
In a sweetheart harmony
Though I know just what went with her
She's always here with me
Always here with me
(Chorus x2)
Well I dream I heard that whippoorwill sing
Yeah she sang my song and called me by name
Well I dream that I heard that whippoorwill sing
Yeah she sang my song and called me by name, Lord
(Outro)
Starting all over again
Yes I'm starting all over again
